EXPERIENCE

Sodexo France — Service & Product Designer · London / Paris

Jan 2025 – Jul 2025

- Designed Sodex Smartest (SmaTaste), an AI-driven workplace dining service connecting personal taste memory with kitchen demand forecasting through one explainable service loop.
- Built a Figma design system covering 14+ touchpoints across kitchen, mobile app and dining-hall surfaces; ran 1:1 user research with operators and end-diners; coordinated requirements between catering operators, end-users and Sodexo's enterprise client team.

Co AI — Co-Founder & Designer · London

Jan 2026 – Present

- Co-founded Co AI and lead design for Cerebral Learning — a customer-facing AI product orchestrating six specialised LLM agents into a structured voice-and-text workflow, shipped end-to-end on Next.js, Vercel AI SDK and Web Speech API.
- Built the Figma component library from scratch — agent persona variants, state-driven UI, voice and text affordances, light / dark theming, responsive auto-layout; iterated weekly with 1:1 user testing.
- Daily hands-on use of ComfyUI, Runway, Midjourney, Cursor, Claude Code and Vercel AI SDK; cross-functional with engineers across product, design and content.

SKG Studio — Web Designer · Remote

Mar 2025 – Mar 2026

- Shipped *skgplus.cn* end-to-end — scalable design system from scratch, tag-filtered CMS across 170+ works, custom cursor and theme-colour interactions, video hosting pipeline; full responsive build.
- Rebranded the studio's mapping contest as *amacontest.com* — grew into an international IP with 400+ teams across 4 editions; led visual direction and bilingual content strategy.

HUAWEI — UX Designer · Chengdu

Sep 2022 – Dec 2022

- Shipped 2 design systems on Huawei Theme Store — mobile + watch face; redesigned 68 first-party and adapted 51 third-party icons across HarmonyOS within strict component and token conventions.
- Launched a new HarmonyOS interaction template adopted Theme Store-wide; designed lock-screen and widget patterns within shared component libraries.

ByteDance — Visual Designer · Chongqing

Oct 2023 – Dec 2023

- Shipped 2 TikTok / TikTok Lite filters — 10K+ views, featured on TikTok “Best of the Week”; led custom AR effects (beauty, atmosphere, interaction) for global TikTok surfaces, informed by daily active user trend analysis.

EDUCATION

Royal College of Art — MDes, Design Futures · London

Sep 2024 – Sep 2025

- Featured in *The Guardian* (Mar 2026): “How art school creators are adapting to the age of AI”.

Sichuan Fine Arts Institute — BA, Digital Media Design · Chongqing

Aug 2020 – Jun 2024

SKILLS

Design practice · Product design, UX design, interaction design, design systems, prototyping, wireframing, user flows, user research, usability testing, accessibility (WCAG 2.1)

AI tools (daily) · ComfyUI (node-based pipelines), Runway, Midjourney, OpenClaw · Cursor, Claude Code, Vercel AI SDK, Web Speech API · agentic UX, prompt engineering

Design tools · Figma, Adobe Creative Cloud, Sketch, Cinema 4D, Notion, Miro · Next.js, HTML / CSS / JavaScript awareness; comfortable reviewing implementation with engineers

Methods & languages · Cross-functional collaboration, agile delivery, stakeholder management · Featured in *The Guardian* (Mar 2026) on AI in art and design · English (IELTS 7.0) / Mandarin (native)

AWARDS & RECOGNITION

- Red Dot Design Concept — Shortlist, 2023.
- International Design Award — Silver & Bronze, 2023.
- European Product Design Award — Top Design, 2023.
